This application had been allowed; however, we have found a reference which anticipates some claims.

Claim 77 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent for the "chamber".

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 66-69 are rejected under 35 U.S.C. 102(b) as being anticipated by Tomaka et al 5,383,411 (newly cited).

Tomaka shows a tray having a central platform 12, and end flaps 18, 20 which may be locked in a wing position where the flaps extend outward from the platform (figure

2), or a leg position where the flaps extend vertically from the platform (figure 1). The tray may be supported on a bathtub or other surface, and one may engage in play with

the tray by manipulating objects thereon.

Claims 1-65 are allowed.

Claims 70-76 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 77 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
